*In the human Heart  
there lives a part of Man  
which contains matter  
more spiritual than in any other organ;  
also a part of Man  
of which the spiritual life  
is made more manifest in matter  
than that of any other organ.*

*Hence in the Microcosm that is Man  
Sun is the Heart,  
and in his Heart is Man united  
most of all with the deepest fount—  
the fount of his true Being.*

The weekend event will celebrate the centennial of Rudolf Steiner's announcement of the reappearance of Christ in the etheric realm, which began in the 1930's and will continue for the next 3,000 years. Lecturers will address: relating to the etheric Christ, the individual and the Christ returning, and the fifth chamber of the heart. Eurythmy and discussion with Natasha Moss and projective geometry with Matt Taylor will enliven our striving to apprehend and understand what is meant by this realm of the etheric.

All members and friends of the Anthroposophical Society are welcome.
